JOB VACANCY

ABOUT US:

We are a tech company based in Dar es Salaam offering bespoke technology solutions across a wide range of sectors. Our exciting team includes young, enthusiastic, courageous and driven members

We are Looking for a Full Stack Developer (FULL TIME)

Key Responsibilities:

- Develop high-quality, maintainable, and scalable code that adheres to best coding practices.
- Develop REST API for dashboard and mobile application (for partners and clients)
- Solve complex problems efficiently with well-structured and easy-to-maintain solutions.
- Communicate effectively with team members, stakeholders, and clients to ensure clear understanding of requirements and project progress.
- Design and implement responsive user interfaces that provide an optimal user experience across various devices and browsers.
- Write simple, effective **API**s ensuring functionality aligns with the specified requirements.
- Work independently with minimal supervision, taking initiative as a self-starter to meet project deadlines and objectives.
- Collaborate with the development team to ensure code quality, participating in code reviews and mentoring others to follow coding standards.

Qualifications, Skills and Experience:

- Proven experience as a Full Stack Developer with a portfolio or examples of past work and projects.
- Bachelor's degree in Computer Science, Information Technology, or a related field, or equivalent experience.

- **Backend**: Nodejs with expressjs, Mysql, Docker and docker compose, Linux CMD, Aws services (ec2 and s3), php (Laravel), python and java (springboot)
- **Frontend**: ReactJs, Vanilla CSS, Flutter

- Strong analytical and problem-solving skills.
- Driven, Committed and Strong team player

Salary: Negotiable

Your CV should be sent via e-mail at alfred.l@humtech.co.tz
